### BRYAN KNEW ABOUT IT

Had Advance Information Regarding

Baron Makino's Address.

Washington, Jan. 23.—Although Secretary Bryan knew in advance the substance of the address of Baron Makino, Japanese minister of foreign affairs, reviewing the California anti-alien legislation negotiations, it was said today that the secretary did not know of that portion of the minister's address which dealt with Japan's relations with other powers and the Mexican situation. Officials said it had not been expected that this government would be consulted as to these features and the fact that it had not been advised was without significance.

Officials also declined to attach any significance to the portion of the baron's address touching on the Mexican situation. It was said the United States had been fully informed of the steps Japan was taking to protect her subjects there.

### TO THE DUNGEON.

City Prisoners Must Go There For

ever Unless They Work.

There is a strike among the prisoners of the city jail. They refuse to work—don't want to make big rocks into little ones—and still insist that for every day they remain in jail a day should be taken off their sentences. The strike is said to have been headed by Sprague Chase, an old offender, who is serving out a \$100 fine.

Chief of Police Ross went to Mayor Coffran this morning for advice on how to handle the strike. City Attorney Ralston was called into consultation and the city ordinances were looked up, and unless Chase and the other strikers either pay their fines or perform whatever labor the chief sets them at, they will be placed in the dungeon in the basement of the city jail and fed on nothing but bread and water forever and forever, or until they change their minds and consent to work. The ordinance is very specific on the question. It provides solitary confinement on nothing but bread and water for refusal to work, and says that time spent in jail will not count in favor of prisoners unless they work.

### ON ARTHUR CASE.

Otis Hungate to Salt Lake—May Act

as Marie Arnett's Counsel.

Otis Hungate, a Topeka attorney, will leave the city tomorrow for Salt Lake City, where he will investigate the case of Marie Arnett, formerly of Topeka, who is charged with the death of Frank "Broadway" Jones of Elie, Neb., a bartender.

The death of Jones occurred in Salt Lake City, January 9. According to the information received from Utah on that date, Marie Arnett shot him with a revolver in a room at the tourist hotel, where it is said, the couple was living. She turned the gun on herself after the murder and inflicted, at the time what was thought to be a mortal wound.

Marie Arnett is the daughter of Rev. R. Arthur, a retired Presbyterian minister. She has four brothers living in Topeka. They are W. R. Arthur, Chester Arthur, John Arthur and Greer Arthur. She left Topeka five years ago. She was married to Ward Arnett here in 1905 and later the couple separated.

### MINORITY REPORT.

Is Filed in the Glass Senatorial Case

From Alabama.

Washington, Jan. 23.—Senators Bradley and Clapp, as a minority of the senate election committee, completed their report today favoring the seating of Frank P. Glass of Birmingham, whom Governor O'Neal appointed senator to succeed the late Senator Johnson of Alabama.

They maintained the governor acted legally under the new amendment to the constitution for direct election of senators, when he appointed Mr. Glass in the absence of laws in Alabama for direct election. A majority has held otherwise. The senate will decide.

### MADE A GOOD TRADE.

Provided Mrs. Wilson Is Able to Hold

Land She Bought.

Los Angeles, Jan. 23.—Mrs. Woodrow Wilson paid \$3,000 for the sixty acres of land in the Coachella valley, which is the subject of a contest in the United States land office here. Mrs. Wilson son informed Homer L. Goddard, one of the rival claimants, in a letter written from Pass Christian on January 9. She added that she had paid taxes on the land for the last three years.

The correspondence was introduced today. During the time the president's wife was paying taxes on the land on it had never been perfected by John T. King, the original locator. Learning of this, Mrs. Maude Compton Hensle filed a homestead entry on the land, which she sold later to Homer L. Goddard.

It developed today that the president's wife had made a good bargain provided her title to the land was established. Witnesses estimated the value of the tract now at \$3,000.

While Mrs. Wilson's letter states that she is the owner of the land in controversy, a deed introduced in the hearing vests the title in the president himself.

### LOCAL MENTION.

H. D. Driscoll was chosen to represent the promotion committee of the Commercial club at a hearing of the public utilities commission which will be held in Frankfort January 25. The question under consideration will be the connection of the Central Branch of the Missouri Pacific railway with the Topeka-Marysville branch of the Union Pacific. This would facilitate the handling of wheat and other freight. Mr. Driscoll will also represent the Topeka Traffic association at the hearing.

Ossawa wants motor car service from town to Topeka. It is claimed that the people of the town now go to Leavenworth to do their shopping because they cannot come to Topeka and return in a single day. The promotion committee of the Commercial club will look into this proposition.
